

## **Maffvic - Celebrating Leicester**

Maybe seven, eight years ago now, one of my colleagues used to arrange school visits to the synagogue. He decided he did not want to do it anymore and he asked me if I would take over the mantle of doing it, which I did. And to this day I would say that I absolutely love arranging the school visits to the synagogue. I also do outreach visits to schools and I am also involved with St Philip's Centre, doing the faith road shows, speaking to new police cadets about the Jewish religion, and the fire service as well.
