

### **Maya - Where is home?**

I belong very much [in Leicester], because now I do not even see myself as an Indian. We have lived in the present house for 37 years and we are happy in that house. It is a beautiful home, and we have everything we want. Even the people, I have learned that you cannot all be the same. You like them, or you do not like them, but you just do not harm them, or you do not do anything to them. You just mind your own business.
