

Caroline - Where is home?

I feel at home in Leicester because I have always lived here. I have lived in the same house for 32 years. My family and friends mostly live here. But I could be anywhere, and it would feel like home. I do not feel stuck here, but it is comfortable, and I have not had any reason to move.

The universe is my home! Home is where the heart is. I go to Cornwall to see my daughter and I feel at home there. I go to Thailand a lot, I feel at home there. As long as you are connected to yourself, you can be at home.
